SUMMARY

MS Cybersecurity candidate (3.80 GPA) with 7+ years of hands-on experience building, migrating, and troubleshooting web systems, from full-stack development to enterprise search and AI strategy at Deloitte. Graduate coursework in network security, vulnerability assessment and penetration testing, intrusion detection and prevention, cyber threat intelligence, and Python, with offensive security practice in a Kali Linux home lab and on TryHackMe. Skilled in reconnaissance and open-source collection, with deep knowledge of how internet and web technologies collect, store, and surface information. Proven ability to explain complex technical findings to senior leaders and to deliver in fast-paced, cross-functional environments. Seeking a Cyber Operations Officer position.

TECHNICAL SKILLS

Offensive Security & Assessment: Penetration testing, vulnerability assessment, reconnaissance, network mapping and scanning (Nmap), web application testing (Burp Suite, OWASP Top 10), exploitation frameworks (Metasploit)

Network Security: Network security fundamentals, intrusion detection and prevention systems (current coursework), Tor

Operating Systems & Command Line: Kali Linux, Linux command line

Programming & Web Technologies: Python (including matplotlib), algorithms and data structures, React, Node.js, PostgreSQL, APIs, source code review, web architecture, search engine indexing and retrieval

Reconnaissance & Threat Intelligence: OSINT, SOCMINT, Google dorking, Maltego, Shodan, VirusTotal, WHOIS/DNS lookups, MITRE ATT&CK, Cyber Kill Chain, IOC and IOA analysis, threat actor profiling

AI & Information Systems: LLM information retrieval, AI search vulnerabilities, prompt engineering

PROJECTS & HANDS-ON LABS

Kali Linux Home Lab

- Built and maintain a personal Kali Linux lab to practice reconnaissance, network scanning and mapping with Nmap, and web application testing with Burp Suite.

TryHackMe

- Earned badges for the Metasploit, OWASP Top 10, Pentesting Principles, Burp Suite, Linux, and Security Awareness modules.

APT38 Threat Assessment – MS Coursework

- Analyzed two campaigns by North Korea's APT38 against financial targets using the Cyber Kill Chain, mapping the group's tools, techniques, and tradecraft to MITRE ATT&CK.
- Identified defanged IOCs and five priority IOAs; built an intent-capability heat map in Python and a risk model showing a 55.6% relative risk reduction from recommended controls.

Adversary Mapping Briefing: Scattered Spider and APT29 – MS Coursework

- Mapped 20 techniques across two adversaries to MITRE ATT&CK and translated them into executive threat profiles, business impact statements, and mitigation priorities.

EXPERIENCE

Deloitte US – Search and AI Strategist **– Wilmington, DE**
Oct 2022 – Present

- Advise C-suite and senior leadership as US subject matter expert on search engine and AI methodologies, translating complex technical findings into executive-level recommendations.
- Led SEO strategy through Deloitte's major US website migration, working with technical and business teams to prevent forecasted traffic losses and deliver 10% organic traffic growth in the first 30 days post-launch.
- Established governance standards and automated workflows that protect data integrity and secure content deployment across enterprise systems.
- Manage 3 SEO specialists and external vendors, planning and prioritizing competing enterprise initiatives.

Quartz Network – Search Engine Optimization Specialist – Wilmington, DE
Oct 2020 – Jul 2022

- Validated data integrity and secure integration across systems during API and database migration projects.
- Partnered with developers during a major website migration to implement technical requirements, secure configurations, and data integrity checks.
- Analyzed and resolved technical issues affecting how content is crawled, indexed, and retrieved, restructuring site architecture to improve discoverability.
- Collected and analyzed competitor and search trend data from public sources, turning findings into recommendations for stakeholders.

MSquared Holdings LLC – Web Developer – Kennett Square, PA
Aug 2019 – Oct 2020

- Developed full-stack web applications using React, Node.js, and PostgreSQL.
- Increased organic website traffic by 350% through technical optimization, information architecture improvements, and user experience enhancements.
- Implemented digital strategies that contributed to a 25% increase in revenue during COVID-19.

Whittens Fine Jewelers – Web Developer & Digital Analytics (Contract) – Wilmington, DE
Sep 2018 – Dec 2018

- Analyzed performance data to identify trends and generate insights that guided business decisions.
- Implemented website improvements that increased platform performance, information discoverability, and customer engagement.

Law Offices of Amanda Brinton – Paralegal/Document Review – Wilmington, DE
Sep 2017 – May 2018

- Conducted comprehensive document analysis and indexing to support litigation and discovery processes.
- Provided research-driven recommendations to counsel, reducing costs and improving case outcomes.
- Assisted with client interviews, discovery preparation, and evidence evaluation.

E-volve Fitness – Founder & Owner – Wilmington, DE
2009 – 2017

- Founded a mobile fitness business in 2009 and grew it into E-volve Fitness, a brick-and-mortar studio opened in 2015.
- Managed staff, finances, client relationships, and daily operations.
- Delaware Runner-up in a global startup competition in 2014.

EDUCATION

Wilmington University – MS Cybersecurity
Expected 2027 | GPA: 3.80

Relevant coursework: Network Security, Vulnerability Assessment & Penetration Testing, Intrusion Detection & Prevention Systems (in progress), Cyberthreat Intelligence, Python Programming, Algorithms & Advanced Data Structures

Wilmington University – BS Criminal Justice; Post-Graduate Legal Studies

Thinkful (formerly Bloc) – Full-Stack Immersion Bootcamp

CERTIFICATIONS & TRAINING

- CompTIA Security+ (In progress)
- Google Cloud Digital Leader; Google Gen AI Leader
- Trace Labs – OSINT Educational Series (F1ndx)
- DataCamp – Data Analyst Track; Data Scientist Track
- AI Strategy Certification (3-Day Program); Advanced Prompt Engineering (2-Day Program)
- Basel Institute on Governance – Financial Recovery Course
